## Notification of Fuel Levy Adjustment for Bus and Coach Charter Services

### Fuel Levy Notice

We wish to advise our customers that fuel prices have increased significantly in recent times due to ongoing global conditions. While we have made every effort to absorb these rising costs where possible, the continued increases mean this is no longer sustainable.

In accordance with our terms and conditions, a fuel levy may be applied where there are substantial increases in operating costs.

To ensure fairness and transparency, the fuel levy is calculated based on the total distance travelled for your charter and the number of vehicles required. The levy reflects the difference between the fuel price at the time your quotation was issued and the fuel price at the time the charter is undertaken.

This charge will appear on your invoice under the heading “**Fuel Levy**”, itemised per vehicle for clarity.

We understand that additional charges are not ideal, and this decision has not been made lightly. We will continue to monitor fuel prices closely and will review the levy with the aim of reducing or removing it as conditions improve.

If you have any questions or require further clarification, please do not hesitate to contact us.
